### **DETAILED ACTION**

The amendment filed 10 February 2005 has been carefully considered but has been deemed non persuasive. Claims 1-11 are pending. Applicant's amendment to the claims language has been noted with appreciation. Applicant's arguments in regards to claims 2-5 are deemed persuasive. Therefore, the rejection under 35 USC § 103(a) has been withdrawn.

In regards to claim 1, Applicant argues Hudson discloses an aspirator 22 that is a separate part this is mounted to a fan shroud 10. Applicant further argues the pre-cleaner of Hudson is attached to a hose which communicates with the port 34 on the aspirator. In contrast, Applicant's claim stated that the fan shroud has an air passage in a surface thereof and that the pre-cleaner is mounted to the fan shroud such that the aspirator port is in direct communication with the passage via the nozzle. The Examiner respectfully disagrees with the assertion Hudson does not read on the claim. It is the position of the Examiner that while Hudson does disclose a hose connection the pre-cleaner to the aspirator, the claim language does not limit the claimed invention to exclude the additional component. Further, the claim language states that the pre-cleaner has an aspirator port. It does not state that the aspirator port cannot consist of more than one component, i.e. Hudson's aspirator port consists of all the components including the hose.

#### ***Claim Objections***

Claim 1 is objected to because of the following informalities:

On line 7, "passage" should be --air duct--.

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hudson (U.S. Patent Number 5,427,502). Hudson discloses a fan shroud (10) (see Figure 1-3 and Col. 2, lines 12-13) aspirator for use with a pre-cleaner (24) (see Figure 1-3 and Col. 2, lines 12-13) having an aspirator port, wherein the shroud (10) is disposed between the fan and a cooling module (see Figure 1-3 and Col. 2, lines 22-45). Hudson discloses a passage in a surface of the fan shroud (10), wherein the passage communicates between portal and an aperture provided in the fan shroud (10) proximal to the fan (see Figure 1-3 and Col. 2, lines 25-55). Hudson discloses the pre-cleaner (24) being mounted to the fan shroud (0) wherein the aspirator port is in direct communication with the passage via the portal (see Figure 1-3 and Col. 2, lines 59-68). Hudson discloses a vacuum necessary for proper aspiration of the pre-cleaner provided by an airflow induced by the fan (12) through the passage (see Figure 1-3 and Col. 2, lines 20-41 and 59-68).

**CONCLUSION**

***Allowable Subject Matter***

Claims 2-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Contact Information***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dwayne J White whose telephone number is (571) 272-4825. The examiner can normally be reached on 7:30 am to 5 pm T-F and alternate Mondays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Look can be reached on (571) 272-4820. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
